Dear Tex,

To follow up on my letter of yesterday. Another AIUSA adoptee is an Uruguayan Nelson COLLAZO GRAU, who is a trade union leader in Argentina. He was imprisoned in Argentina and released in March 1977. You most probably have a file on him as there have been Congressional letters regarding his case. He was deported to Uruguay upon his release. The group, #83 in Washington D.C. is concerned as their latest information is that he may have clandestinely returned to Argentina where his family has and still does reside. The group is most anxious that he be granted a visa to the U.S. should he apply under the program. They will also be in touch with you about this, but I wanted to draw your attention to the case should he apply.

After going over your list, I have found 34 AI adopted cases from a list of ours dated January , 1978. There is a new list dated March which I will check as soon as it arrives. In the meantime, I thought I would list the AI adopted cases (these include the two cases I wrote to you about yesterday.
